**Lonoke Public School District**

**CASE REPORT**

**As of September 21, 2020**

Parents, Guardians, and Stakeholders,

Periodically, we want to give you information regarding the number of active cases in our district as well as the number of students and number of faculty/staff members who are being quarantined. Please keep in mind that those quarantined are out of the school setting because they were within six (6) feet of a person identified as an active case for a cumulative 15 minutes over a 24-hour period (close contact). As with other school districts, the case count in our district has been and will likely continue to be relatively low compared to the number of those being quarantined. Our faculty and staff are working diligently to ensure that cases are quickly reported and that contacts to active cases are identified in a timely manner. Our district report effective September 21, 2020 is as follows:

**ACTIVE COVID-19 CASES (Current): 12 (11 students, 1 staff member)**

Lonoke Primary School: 0

Lonoke Elementary School: 1

Lonoke Middle School: 4

Lonoke High School: 6

Transportation: 1

**NUMBER QUARANTINED (Contact with active case): 161 (152 students, 9 teachers)**

Lonoke Primary School: 1

Lonoke Elementary School: 9

Lonoke Middle School: 70

Lonoke High School: 81
